Junior Festivities Begin Tomorrow Nite

All Fraternities To Hold Dances

No Open House Dances to Feature Junior Week; Each Has Something New

The last dance of Junior Week will be held Saturday evening. All the fraternities are attempting to make this dance the best affair of the year.

In former years it was customary to hold "open house" dances on Interscholastic Day night. The program has been changed this year as the fraternities will not be open for visitors, other than the alumni members and their guests. The purpose of this change is to prevent the high school students from attending.

Rho Iota Kappa

The gayly decorated rooms of Rho Iota Kappa will harmonize with the gay selections of "Dan Jacobs and His Orchestra." The dance is being arranged by Francis Fay who is being assisted by Richard Dimock and Charles Commons. Captain and Mrs. Freeman and Professor and Mrs. Keegan are the patrons and patronesses for the occasion.

Theta Chi

Al Rosen and his Playboys will supply the music at this dance. The committee in charge of this affair is Ralph Bastolla and Leonard Tamulevich. The patrons and patronesses are: Coach and Mrs. Keaney, Prof. Rockafellow and Mrs. Taft.

Lambda Chi Alpha

Lambda Chi Alpha has secured Coach and Mrs. Tootell and Mr. and Mrs. W. A. Scott for patrons and patronesses. The committee in charge is composed of Harry Flynn, Charles Hall, Jack Smith, and William Kelleher. Music will be furnished by the Brown University Hill Toppers.

Beta Phi

Beta Phi has engaged the "Majestic Orchestra," for their house (Continued on page 6)

Phi Delta Will Present Drama

"Dear Brutus," Three Act Drama by J. Barry, to Be Presented May 8

Phi Delta will present as their next play "Dear Brutus," a three-act drama written by James Barry. The production, which will be given in Edwards Hall on the evening of May 8th, will be coached by Philip Lyon, who is widely known for his impersonations and characterizations. As a result of the tryouts two persons have been chosen for each part, one to act as an understudy. Rehearsals are being held daily in the auditorium.

This play is a little different from their other productions, in that it has a serious outlook on life where the others have been comedies. The group of characters in the play are dissatisfied with the things in life, and they believe that if they were given another chance they would do better and place themselves in a more perfect accord with the surroundings.

Scene one takes place in the (Continued on Page 6)

CHEM. CONTEST SAT. MORNING

The eighth annual Chemistry Contest will be held on Interscholastic Track Day under the auspices of the Chemistry Department with Prof. Joseph W. Ince in charge and assisted by Professors Stanley W. Hetherington and H. Louis Jackson.

This contest has brought forth much favorable comment from the secondary school leaders of New England and it is expected that about ten high schools will be represented in the competition.

A silver cup is to be awarded to the winning team and will be presented by President Raymond G. Bressler in the afternoon. It was won last year by a team representing Rogers High School of Newport and it is rumored that they are planning to make a strong bid for it again this year.

Engineers Will Conduct Exhibit

Juniors and Seniors to be At Various Machines And Apparatus

Elaborate plans for "open house day" in Bliss Hall have been completed. On Interscholastic Day, the engineering departments will be prepared to conduct various experiments for the benefit of the sub-freshmen.

The committee, under supervision of the Engineering Society, have arranged a program, whereby the sub-freshmen will be given an opportunity to witness various interesting experiments. Each department will offer examples of the work carried on. The Electrical Engineers will display various motors, and electrical equipment. The Civil Engineers will construct a miniature span bridge, while the Mechanical Engineers will perform various testing experiments, such as testing the strength of cement and steel.

Many of the new motors and engines will be explained. Juniors and Seniors will be stationed at various machines, explaining the why and wherefore of each.

Not only will this exhibit be of interest to the sub-freshmen, but it should prove of great educational value to the students here. This is the first real opportunity presented to the students to view the work carried out by the engineers. All students and guests are cordially invited Saturday afternoon, directly after the serving of dinner.

It is the purpose of the department to offer sub-freshmen, students and guests the opportunity to view for themselves the size of the field of engineering as exemplified by its products. Much effort has been made to make this particular feature of the day a success and all that it will now require is the cooperation of the visitors. Each branch of the Engineering Department will put on its own exhibit. One feature that will be of interest to the visitors will be a twelve foot bridge, so constructed as to show the stress and strain on the various members of the structure.

Pride Should Be Advanced at Rhody

Dean Barlow Tells Us That We Should Take Pride in Our Institution

Pride is said to be one of the seven deadly sins, but I am bold enough to ask Rhode Island State College students to have more pride of certain noble sort. Saint Paul on a certain great occasion said: "I am a citizen of no mean city," and the Romans used to say proudly, "Romanus sum." We all are filled with pride when our team wins or our ticket is elected or some of our people achieve success. We realize that their success is partly our own work. This is especially true of the college to which we belong. Our success in life is closely bound up in the success of our college and our reputation is dependent in a measure upon the reputation of the college to which we belong. As the years go by and college bred men and women more and more occupy places of responsibility and influence in the affairs of the nation, this will become increasingly important. (Continued on Page 4)

BARNARD CLUB SAT. AFTERNOON

Next Saturday the Barnard Club of Rhode Island meets for its annual banquet and convocation in South Hall. They are the guests of the College for the day, and in the afternoon will make a tour of inspection of the demonstrations to be staged in Bliss Hall by the combined engineering societies of the Institution.

Among the speakers will be President Raymond G. Bressler and Dr. Walter Ranger, President of the Board of Managers. Other guests will include several notable educators of this section of the country and teachers of many secondary schools of the State.

Prom Ushers in Junior Week

Paul Whiteman's Leviathan Orchestra to Feature at Annual Gala Affair

The Junior Prom, that annual gala affair at R. I. State College, will be ushered in tomorrow night with the entrancing strains of Paul Whiteman's Leviathan Orchestra. The stage is all set for the best Prom in the history of the college, according to the chairman, Albert Carlotti, and his corps of co-workers, who have been laboring overtime this week to put on a Prom that will be remembered for years to come by all who attend. This affair will be the last major dance of the school year, and as such will mark the climax of the social activities at the college for the present season. Dancing will begin at 9 p. m. and will last until 3 a. m.

Paul Whiteman's Victor Recording Orchestra needs no introduction anywhere in America, for it has played in the leading colleges of the country. It comes to Rhody fresh from a tour of the South, where it was entertained at many of the leading colleges. It also took part in the "Battle of Music" at M. I. T. It is an eleven piece team, which, according to report, is swift, hot, flashy, and all the other epithets applied to a good dance team.

It should find conditions perfect for its best work, judging from the preparations made by the decorations committee, for the gymnasium is appropriately decorated to harmonize with the effect of the orchestra. Blue and yellow colored bunting drapes the entire hall, ending in a huge arbor which will surround the members of the orchestra. No effort has been spared to make the gymnasium one of the most dazzling spectacles ever presented for a major dance here at Rhode Island.

The favors will also evenly match the orchestra. They are small, neat, silver compacts, with modernistic designs on them. Never before have such gifts been introduced at (Continued on Page 6)

Calendar

Thursday

3:30 p. m.—Baseball, Frosh vs. Warwick High.
9:00 p. m.—Junior Prom.

Friday

8:00 p. m.—Phi Delta Play, "Dear Brutus," in Edwards Hall.

Saturday

8:00 a. m.—Chemistry Contest.
9:15 a. m.—Interscholastic Track Meet.
1:30 p. m.—Open House in Engineering Building.
8:00 p. m.—Fraternity House Dances.

Sunday

10:45 a. m.—Village Church. Special Mother's Day sermon.
5:00 p. m.—Village Church Vesper Service; musical numbers by Providence musicians.

Monday

3:00 p. m.—Assembly in Edwards Hall.

Wednesday

3:30 a. m.—Panzer College vs. Varsity in baseball at Kingston.

Thursday

3:00 p. m.—Frosh Track Meet vs. Conn. Frosh at Rhody.
3:30 p. m.—Frosh Baseball vs. Conn. Frosh at Rhody.

Zephyrus

Spring fever! No one is immune and any vaccination for prevention of this malady is futile. Kingston Hill is a particularly contractable locality as spring fever hits faculty and students alike. The Streptococcus springaeus, when it emerges from its winter sleep, sometime during the latter part of March or the early weeks of April, enters the blood stream of the college student. From this time on it multiplies very rapidly. The natural resistance of the individual to this parasite is often lowered unless unusual precautions are taken with the result that nothing stops its progress. The symptoms of the resulting disease are inertia and lack of interest in anything except pleasure and entertainment, an abnormal desire to stay in the open air, a very marked predisposition to be luxuriously idle as many hours of the day as possible. Complications often set in during the latter stages of the disease which are characterized by a general stiffening of requirements such as grades, class cuts, assignments and weekly quizzes.

The symptoms of the maladjustments are obvious and should they continue they will be fatal. So, snap out of it! The year is not so far gone that a retaliation cannot be made. To some Profs cuts are intolerable, and unprepared assignments cannot be bluffed over their heads. It has been estimated that if we conscientiously study two hours a day on theoretical subjects and apply the time required for the completion of definite problems we should experience no difficulty in surmounting the task of obtaining the necessary grades.

So again, we recommend that you get up for breakfast, go to eight o'clock classes, and ward off this baffling disease fully warned of the consequences which may follow in its wake.

Music Week

This week is Music Week and no doubt an article pertaining to music would be appropriate in this issue of The Beacon.

Last Saturday night marked the finale of the Boston Symphony Orchestra's 50th season. The organization in the past fifty years has had a rather eventful history; this history has recently been made available to musicologists in a publication by Mr. M. DeWolfe Howe. His pen explains in detail why Dr. Muck (conductor in 1918) refused to play the Star Spangled Banner when the Boston Symphony appeared at a public performance in Providence at the time of the World War. Dr. Muck's actions reached Uncle Sam's Secret Service men and his position was made uncomfortable by rumors to the effect that he was a German spy. The German conductor, rather than start trouble by defending his actions, resigned as conductor of the organization. During the season just ended the Boston Symphony Orchestra, thanks to the skill of its re-builders, Pierre Monteux and Serge Koussevitsky, has regained a position comparable, if not yet equal, to that reached under Dr. Muck. Under the latter it was the finest orchestra the world possessed; at present, under the helm of its present leader it ranks with the three finest in existence. The Boston Symphony Orchestra has featured in its past season an unprecedented list of works from the pens of the foremost living composers. Dr. Koussevitsky spared no effort to make a performance of these works perfect. Tribute is due this conductor; he labors with an energy which spares neither himself nor his players. Four years ago brought forth the occasion to sit in on one of his rehearsals; the man was never content with a routine performance and never would he try to rest on his laurels. The taste of that Russian conductor may be questioned but no musical person

would deny his energy and eloquence as shown during any one of his performances; he has a great degree of showmanship which carries with it a distinct air of subtleness and interpretation of the works by the man.

The Boston Symphony Orchestra has served the music lovers of New England for the past fifty years. Let us hope that the tragedy of 1918, which almost ended the career of that organization, will not repeat itself. As long as New England maintains such an orchestra of high calibre, there will be little to fear of "real music spirit" waning in this section of the country.

Pilfered Paragraphs

When we look at some of the people who claim their ancestors came over on the Mayflower, it seems too bad the immigration restrictions were not instituted sooner.

There should be a law compelling them to build apartments over filling stations. People must have some place to live.

No matter how much the average woman consults the dictionary she never learns the meaning of the word "expenses."

The dollar is said to go farther this year in the purchase of a dress, so the skirts must be getting shorter—if that is possible.

Barred from the reputable press, the medical fakers are now "crying their spurious wares" through the smaller radio broadcasting stations.

When you are single you may not think very seriously of marriage, but you won't be married long before you'll be thinking d—d seriously.

It was the demonstration by the Post Office Department through the air mail service that brought private capital to realize that there were great possibilities for the airplane in the field of commerce.

ETIQUETTE

A general carelessness in the matter of social conventions and forms has brought frequent criticisms upon the students and organizations of the college. Some have even been heard to wonder if the many faux pas have been due to lack of culture and knowledge of correct social procedure. Why do fraternities address their invitations to Mrs. Mary Jones, when the wife of the favored professor is not an ultra modern woman keeping a career of her own, and probably much prefers to be addressed by the more conventional Mrs. John Jones?

It has likewise been a long established and widely accepted custom when writing an invitation to a man and his wife to address the invitation, if it is informal, to the woman and not to the man of the family. It seems that it is necessary to be more punctilious about such small, but important "details." Should we take up a collection at assembly to have an edition of Emily Post's "Encyclopedia of Etiquette," put in the library or will a little more attention to such details correct them?

STEPPING INTO A MODERN WORLD

The long arm of the telephone
operator ~ ~ ~ made longer

How to extend the operator's range five-fold? There's an example of the problems put up to a telephone engineer.

This was part of a study in stepping up the speed of service to distant points. "Long Distance" used to relay your call to one or more other operators. Now she herself reaches the city you are calling, 30 or 300 or 3000 miles away.

Result: in five years the average time needed to complete a long-distance connection has been cut from 7 minutes to less than 2 minutes.

In this industry even long approved methods are never considered beyond improvement. For men of the right aptitude, that viewpoint is a stimulating challenge.

BELL SYSTEM

A NATION-WIDE SYSTEM OF INTER-CONNECTING TELEPHONES

The Forum

The Old Circus Lot

What is going to be done about athletic fields? For the past years the football men have come back early in September, sacrificing their last weeks of vacation and every afternoon till Thanksgiving for love of the game and a desire to serve Rhody, to practice on a hard, grassless, dusty circus lot. They have been the best of sports—day after day, hour after hour, in the burning sun of a fair afternoon, plunging, falling, tackling—eyes, ears, mouth, nose burning—stified with the dry brown dust, at times so thick that the very ball was lost in the voluminous clouds which shrouded the "athletic field"—hot, dirty, covered with a coating of tired, sweatladen brown dust—that is the fate of the football man. Not only do we ask this of him, but we ask him to play all his home contests on that same arid lot. We do not even go to the game to support and cheer this martyr of ours, because the dust blows, and we don't like it.

This is just another example of the lag at Rhode Island State, whether it be due to lack of funds, lack of Alumni support, lack of student co-operation, or what? Not only is it unfair to the boys, but the constant breathing of dustladen air is detrimental to their health. We all want a winning team—every college does.

The only difference is that most colleges provide at least two fields, one for practice and one for contests (the ideal having several practice fields). Rhode Island utilizes the nearest vacant lot. We have more land than most colleges. We have an experiment station which specializes in the correct kind of grass for all occasions, including football fields. We have a student body which appreciates the sport. We have a football team and a coach who deserve and are most worthy of the proper facilities for the leading college sport. Now is the time to prepare practice fields, to clear land and to plant grass. This is an appeal to the authorities in behalf of the team and the sport to start work immediately.

—N. E. D.

"To the Editor of the 'Forum':
"Dear Sir:

"In last week's Beacon, under the 'Forum' there appeared a criticism of the editorial 'The University of Rhode Island,' that was published in the 'Frosh Beacon.' As editor of that issue, and author of that article, I feel it is my duty to answer that criticism.

"First of all, I may state that it appears as if the criticism had a hidden meaning behind it, not a pure criticism of the contents of that editorial, but an attack on its author. An analysis of the logic used by the 'Forum' shows this, for you state, "I doubt very much if you are a thorough reader of the Beacon, calling to attention that during March there was a discussion of the University question here. I was fully aware of what was going on, and that is the reason the University editorial was published in the 'Frosh Beacon.' The 'Forum' also states, "It was poor judgment on the part of the editor to make such an unwise choice of material and to give valuable space to such an article." Here again the 'Forum' shows a lack of logic. After all, what is the object of an editorial? Is it not to express one's opinion on a subject that has some bearing on the reader? Simply because a member of the faculty or a group of students object to some idea, does that signify that we should disregard all matters? What would happen to this world if we failed to discuss new ideas, ideas that we will, or already have adopted?

"I can assure you, author of the 'Forum,' that I was fully aware of all that had been said previously about the University question and I fully knew the meaning of the word 'university.' Outside of the fallacy of 'evading the issue by arguing to the man' there is only one reason why your criticism may have appeared. Perhaps it is that you are following out Rev. Phillips' suggestion of rebelling. If that is the reason, you must also remember that Rev. Phillips advised to rebel against those things that were so narrow-minded, that they needed rebellion."

"H. F.-34."

A Junior Problem

The reader is to arrange the second list of characteristics to fit the names in the first list. Anyone who feels that he or she has matched these to the proper individuals is invited to submit them to the Feature Editor for verification of the same.

DELTA ZETA NOTES

Miss Virginia Lovejoy was recently a guest of honor at a shower given her by Beta Alpha of Delta Zeta Sorority. It was a gay affair; everyone was present to wish the "sweet girl graduate" as much happiness as the world contains. There were packages and presents of every description and size—and so many funny little verses of health, wealth and joy, a good husband a pretty house and then a—well, probably a long life.

Thus, when Virginia very nonchalantly walked into the lodge, she was immediately showered with crepe paper roses and wisteria, and many outbursts of "surprise," "good luck" and "happiness."

Then all the neatly tied parcels flowed in from all directions and brides and bridegrooms were the chief topics of comical poems, and humorous remarks.

Probably the most tasteful and amusing sling of all was the solemn advice given to poor Virginia.

Virginia will marry Mr. Malcolm Bowers on June 8.

Delta Zeta sorority on Thursday last tendered a tea in honor of Dr. and Mrs. Learmont, who are soon to leave for Colorado.

The chairman of the committee for the event was Muriel Fletcher and she was assisted by the Misses Marjorie Aspinwall, Barbara Spaulding, Elizabeth Rodgers, and Margaret Brice.

How many quarts in a quartet?

—Williams Purple Cow.

Ground Broken For A E P House

Will Have All Latest Improvements; Will Be Completed Before Sept.

Ground was broken for the new proposed Alpha Epsilon Pi Fraternity this week. The new building is to be on the Lambda Chi Road, next to Lambda Chi Alpha house. It is to be a three-story brick building with all the latest equipment.

This building will, no doubt, be one of the finest buildings on the Campus, and mark the first brick fraternity house ever constructed at Rhode Island State College. The outside of the house will be of velour tapestry brick with granite trimmings. An effort has been made to draw plans so that the back of the house will appear as attractive as the front. This was so planned that if in the future the Campus is enlarged, to extend in back of Edwards Hall, Alpha Epsilon's new home will be an ornament.

The inside of the A. E. Pi house will be so constructed that it will offer the best opportunities for study, social and recreational purposes. The first floor is to consist of a spacious lounge, equipped with a brick fireplace, a trophy room, a library, an office for fraternity officers, and a suite for the house mother. All of these rooms are to be equipped with leather upholstered divans and chairs. An exceedingly comfortable atmosphere will prevail on the first floor, as here will be found a baby grand piano, the radio and the victrola.

The second floor presents an entirely different atmosphere. Here scholarship will reign, for it will be here that all study rooms will be situated. There are to be 10 rooms, each equipped with four built-in desks, uniform chairs, and a built-in wardrobe. On this floor also will be the numerous showers.

The third floor is to be used as a dormitory. All sleeping quarters will be situated here. This floor is divided like the second floor. There will be 10 rooms here also, each capable of accommodating a maximum of four.

The basement floor is so constructed that it will supply an adequate amount of natural light. Here will be a sound-proof chapter room, a kitchen, recreation room, dining room and the boiler room.

It is expected that the house will be completed and ready for occupancy before school starts next September.

Betty Co-Ed Says

Prom! Prom! Prom! Moonlight setting, Paul Whiteman's Orchestra and Percy Dear—all at once, no wonder I'm so excited! I can't wait! Just three hours more and I'll be happy! Nine is the hour! Have a good time everyone—see you at intermission!

Phi Delta play is going to be a wow! "Modern and mysterious" is the combination, and it sounds good to me!

Saturday—and we'll even see people greener than our freshmen! Now, you wouldn't believe it, but, you see, they're just high school children! Just wait till they grow up to be freshmen! That will be the day!

Night will bring house dances and everyone at Tappa Nu Kegga Bir will feel jolly and the orchestra will be real hot—and the fraternity songs will be so jazzed up, why, they won't even be recognized! And, oh, what punch—tasting so delicious, when one becomes warm.

Well, then we'll call it a weekend! Why not?

Our college days are lessening. Soon Kingston will be but a dream or a nightmare—memories of proms, dances, tea, picnics, stunt nights, baseball, football and dear old basketball! Then will all eds and co-eds harken to the call of shore or country! The Cape seems to be the fad—come down any time—and see the gang!

Idler

Prom week is here in all its glory—the campus will blossom out in beautiful girls, some out-of-town wench—others just our own dear co-eds dressed up for the occasion. In all seriousness this was heard in one fraternity house—"Is there a pawn shop down the line?" This here world wide business depression is finally being felt on the campus. A general, or maybe it was just a major, dropped in for a casual inspection of our Army—must have been pleased—he left early. Captain complimented one Frosh for his good execution of hitting the ground during open order drill—Frosh remarked afterwards that it was an accident—he had tripped—he would never have fallen down so hard of his own accord. Goff's new chariot is still ticking like the proverbial clock,—though he failed to remember that a Ford requires oil faster than he can throw it—In spite of that wonder boy, Chubbuck, Rhody trimmed the Aggie trackers—Arnold and Goff tried out a new form of two-timing and made it come true when they won their events in said track meet and then clicked through at the diamond tilt with W. P. I.—ten runs in the first inning—would I like to be in that pitcher's shoes—not. All this new landscaping will offer, especially behind Ranger, more seclusion when walking toward the West Side—Who said mere beauty didn't pay? We liked the way President Bressler got out of that swell Franklin and went to recover the foul ball at the game Saturday—How many have tried swimming at the Pier as yet—me, I'm like the chap who, when asked to take an airplane ride, replied, "I'd rather be a living coward than a dead eagle."

My life ambition—to announce through the new amplifying system at the Interscholastic Track Meet—Oh what a chance to call, "You taxicab!" at the coach—Steaks that could be cut with a fork at the Beta Phi banquet—leaves beginning to show on the campus elms and maples—does this Kingston wind ever stop blowing? Hope your eyes are better Johnnie Fayat, with all these Prom girls around, too—tough luck, Phi Delta play Friday night—don't forget to come—the balcony is always well darkened—next free afternoon I'm going through that road back of Chickenville and find just what is the feature attraction—new records on the nickel eating slot machine at the Cage. It's a long walk around Hundred Acre—warm afternoons and P. I. K.'s radio on the porch—Sigma Kappa desires a loan of the following records—"St. James Infirmary Blues," "Comin' Round the Mountain," and "Elizabeth"—Aggie Club picnic coming soon—what becomes of all the electric light bulbs in the locker room?

Loafer.

(Pinch hitting for the Idler)

Elsie was an inveterate and tireless bargain hunter. She often spent hours at a stretch trying to buy a dime for a nickel, and the only thing in the world that was dearer to her than a red-hot fire sale was Thomas, her handsome fiancé.

One night Elsie danced wildly into her house and found Thomas waiting for her in the parlor. Spying him, she burst out:

"Gee, Tom-Toms, lookit! A half dollar handkerchief for only forty-nine cents, and such a—"

She stopped short. The seriousness of the other's expression informed her that he had something important to say.

"Elsie," he began mournfully, "I'm heartbroken. When we became engaged, I told you I had several thousand dollars. That was four months ago. Now I've had the rottenest luck in business, and I haven't any more than a couple of hundred dollars to my name. I can't offer myself to you in this reduced state; I'm afraid we must part."

But Elsie's long years of training did not desert her for an instant.

"Wow!" she shrieked. "One marvelous husband—reduced from a thousand to a hundred! What a bargain! Tommikin, where's the nearest minister, you darling?"

C. C. N. Y. Mercury.

Jim: I'll beat you to a jelly.

Tim: What flavor?

—Missouri Outlaw.

Chats with Prexy

This week's interview with our President discusses the opportunities at Rhode Island State College for the incoming Freshmen, many of whom will be here to visit our Campus on Saturday.

The question has often arisen regarding the advantages of a college in rural districts as opposed to one situated within metropolitan limits, and thinking particularly of Rhode Island State College in connection with this item, President Bressler stated, "You cannot get an education by running up and down the streets, and the college in suburban localities offers far better physical conditions for the student than does one in the city. On the other hand, industrial training and graduate work can be carried on to a better advantage in the more closely populated areas." In continuing he mentioned the point that "... here we can make our entertainment and own recreation." The time which might be spent in some play house, here may easily be spent in the great out-of-doors offering relaxation to our mental endeavors and building up our physique.

Democracy is a notable feature here at Rhody for which many larger colleges would give much to be able to boast of. In fact one of the first things Mr. Bressler noted among his contact with the student body was that "... everybody says, 'Hello,' 'Howdy' or some similar salutation and I believe that it exemplifies a fine democratic spirit among the students. ... It is a characteristic which has always existed and is a heritage which it is hoped we will never lose.

"Here the boys and girls have a better opportunity to get well acquainted with their instructors than they do where the classes are so much larger." This is a phase well worth noting as it not only offers opportunity for a personal contact between the student and professor, but also permits the student to derive a greater benefit from the courses in which such conditions exist.

"At Rhode Island State what we are trying to do is to train brains which will function as thinking and working organs and not as storage places." Through the medium of the opportunities offered in the extra-curricular activities one can apply what is absorbed in theory. President Bressler also believes that we cannot go into the class room, listen to a lecture, leave the class at the end of the hour and expect to retain and accept that which we have heard. To the contrary Rhody offers the possibility of going out along the many walks and paths of the country-side, digesting what we have heard and reconstructing our own ideas to it.

In addition to this there is a feature which to many is more vital than the others, and that is the fact that it costs less to go to Rhode Island State College than it does to any other similar institution in New England. This statement is substantiated by actual data on the matter and is a feature which by no means should be overlooked.

So in summing up the points of the interview we wish to impress upon anyone considering a college education, that Rhode Island State has to its advantage the fact that it is a recognized institution throughout the country, that it offers courses to the individual who desires a technical education or who wishes a more general training to serve as a background for advanced work; that the item of expense is smaller than is to be found elsewhere and that it offers the chance to obtain along with the class-room work, wholesome recreation, clear thinking and fields where one can demonstrate his abilities.

"You're a man after my own heart," said the watermelon as the darky thumped it affectionately.

—Scream.

SPECIAL RATES FOR PROM WEEK-END

SEE DEAR BRUTUS

EDWARDS HALL—8 P. M. FRIDAY

Notices

Mr. Paul Cleurzo has definitely tendered his resignation as President of Two Timers Club. He always had a weakness for red.

Charlie Hall has tonight open. Here's your chance girls. adv.

Rifle practice for the women will be discontinued until after the election of the May Queen.

There will be a meeting of all Janitors and Firemen immediately after assembly in the boiler room of Lippitt Hall.

The double quartet for the Women's Glee Club will rehearse at 3:30 p. m., as far from the campus as possible.

Miss Gertrude Anthony has been elected Chief High Note of the Women's Glee Club.

At the next meeting of R. I. State Players a demonstration will be given by Miss Edna Peckham. She will portray the various moods, including passion, desire, rhythm, grace, etc.

Hockey practice will be conducted for all classes on the Women's Athletic Field and Lippitt Hall at 3:30 p. m.

Double cross calls attention to a special course in Forgery open to students in Business Ad.

R. O. T. C. will hold drill on the camps at 1 p. m. today. Talking pictures will be taken by a Hollywood concern named Sennett.

Wanted—A new fire escape for Davis Hall. The other one was worn out coming in after 10 p. m.

There will be a meeting of the Economics Club at 7:30 in some fraternity or sorority house. The subject for discussion will be "Will light wine and beer bring about a greater consumption of pretzels?" Suitable refreshments will be served.

Reward—For the man who served the sword swallower my drum sticks for dinner—Leon Follett.

"Wah Hoo" Goff, captain of football, is spending the summer on the Indian Reservation.

Comical snapshots for the Grist will be taken this afternoon. The following are asked to appear: Hyman Fine, Sally Barker, Dorothy Leonard, Kay O'Neil.

AGGIE CLUB MEETS

The Rhode Island State College Agricultural Club held the last lecture of the year a week ago last Wednesday evening when it had for a speaker, Dr. Theodore Odland, chief agronomist of the Experiment Station, who talked to them on the work done in his field here at the station.

He showed the value of these experiments to those engaged in agricultural problems, especially as they pertained to fertility work. In addition to this he pointed out the fact that the Rhode Island Experiment Station is today one of the leading stations in the country in fertility problems, especially in their relation to the lime requirements of the soil.

The annual Aggie Picnic is to be held at Moonstone Beach the afternoon and evening of May 20th, and about twenty-five couples are expected to be in attendance together with a number of the faculty, who have been invited to attend as honorary guests. A hot-dog roast will be held on the beach and bathing will be indulged in, as well as the usual baseball games and horseshoe throwing contests.

"Do you care for horses?"
"No, I wait on tables."
—Westminster.

Mothers Honored At Sigma Kappa

Twenty-Two Mothers Entertained at Tea Given Sunday, May 3

Last Sunday was Mother's Day at Sigma Kappa Sorority! What a gay old time that was! How marvelous it was to have Mother down to see the place and meet the girls—so nice to have her understand what we mean when we say, "O, Mother, you should just meet So and So. What a pal, Mother!"

Twenty-two mothers were entertained—twenty-two made happy amid the fragrance of daffodils and calendulas!

What singing and rejoicing and joking and laughing! Then tea came—such refreshments! It seemed just so nice that Mother should be sitting over there, chatting with girl friend's mother, as if she had known her for years and years!

Twilight came—and a happy throng of girls sang Sigma Kappa songs, while Mother, joyfully, understandingly smiled on! Somehow, each one felt that this little event would stand out in her memory—and, as the note of that last tune died on the air, and "good-byes" and "come-agains" were in order, someone whispered, "So this is college!" And someone answered "What a wonderful institution!"

OX MOTHERS HOLD BRIDGE

Theta Chi Mothers' Club held its second semi-annual bridge Saturday evening at the fraternity house. There were twenty-four tables of bridge and the winners were: Mrs. Carol Wilcox of West Kingston, John Moran of Providence, James Williams of Cranston and Mrs. George Patterson of Providence. President and Mrs. Bressler and Vice President and Mrs. Barlow were honorary guests. The Mothers' Club will hold its annual business meeting at the Chapter House on May 23, after which the visitors will attend the May Day Pageant.

Theta Chi is to hold a banquet June 6 in the Chapter House.

PHI DELTA ELECTS M. READ PRESIDENT

Phi Delta Dramatic Association at a recent meeting elected the following officers for the coming year: President, Milton Read; vice president, Amy Arbogast; secretary, Florence Allen; treasurer, Theodore Froberg; executive committee, Clark Mordough and Ruth Barrows; property mistress, Helen Grount; property manager, Harry Flynn; stage manager, Philip Lyon; business manager, Harry Bryden.

William Allerton Cushman was chosen chairman of the committee in charge of the annual banquet which will be held some time this month.

Phi Delta has had a very successful year, of which the banquet will be a fitting close.

Go West, young man, go West—and die young.
—Pennsylvania Punch Bowl.

Old Lady at ball game: Why do they call that a fowl? I don't see no feathers.
O'Riley: No, ma'am. It's a picked nine.
—Drexler.

"Where have I seen you before?"
"Where have you been?"
—Webfoot.

Gleanings

According to reports one of the boys at Holy Cross attempted to wear an orange tie on St. Patrick's Day, but was forced to strike his colors after a threatened shower of Irish confetti.—The Tomahawk.

Another comment from one of the college papers declares that after due deliberation as to which "One and Only" to bring to Prom Week, the next thing to consider is the question of financing the enterprise and finally the location of collar buttons and shirt studs—missing since the last formal dance.

They are talking about the clever collegian at Boston University who, in order to garner new fame and glory for his dear old Alma Mater, entered one of his professors in the annual B. A. A. Marathon on the 19th of April. The name was entered by proxy and the guilty party even felt such an interest in the matter as to pay the entry fee of one dollar. The prof did not learn of his hidden athletic talents until besieged in his office by a group of reporters and news photographers eager to interview the professor who would try to steal the immortal DeMar's crown.

Massachusetts Agricultural College, more commonly known as Mass. Aggies and M. A. C., is rejoicing after learning that Governor Ely has signed the bill changing the name of their institution to Massachusetts State College. According to the "Mass. Collegian" the students have been agitating for this change for nearly a half century. College publications have tried numerous times to arouse sufficient interest to influence the legislature in favor of the change, which has now been successfully completed. That just goes to show what persistence will do.

Students at Columbia University were warned in the columns of the "Columbia Spectator" to refrain from feeding the cats in the basements of buildings, not because it made the cats less vigorous in their pursuit of mice, but that the increased food supply tended to increase the size of cat families!

Tech students are mourning the non-appearance of their mud-throwing publications including "The Filter Paper" (wasn't that a choice title?). Those that remain have reformed to a considerable extent. An editorial comment in "The Tech" remarks that an engineer trying to be funny usually ends up by being both dismal and dirty.

Dartmouth is still shopping for a suitable stadium to hold their big intersectional clash with Stanford here in the East. According to news from the "Holy Cross Campus," the people of Worcester might favor holding the Boston College-Holy Cross annual battle in their fair city, thereby giving the Dartmouth-Stanford teams their chance to use Harvard Stadium after all. We have been angling for tickets for that game for most a year, and would hate to see the location moved to Chicago or some other equally inaccessible place.

Speaking of intercollegiate news, Prom should bring in a rather cosmopolitan group of college "imports," as Prom girls judging by rumors in various bull sessions.

Shed a tear for poor little frosh. Alas, he discovered too late When he signed up for six eight o'clocks That each was a class, not a date. Wisconsin Octopus.

Beta Phi Dines At East Hall

Annual Banquet Held Last Saturday; Pres. Bressler Is Guest

Beta Phi held its twentieth annual banquet last Saturday night in East Hall with an attendance of over seventy-five present to welcome the incoming members in whose honor the occasion was festive.

The feature of the evening was the unveiling of the new oil portrait of Vice-President John Barlow, an honorary member of the organization. Dr. Reuben C. Bates of Providence made the unveiling address and it is announced that the painting will be temporarily hung in Edwards Hall.

Toastmaster for the affair was Daniel A. O'Connor and the speakers included Dean John Barlow, Faculty Member; George T. Gades, '25, President of the Corporation; Howard S. Brightman, '32; Rev. Roy Magoun, guest; President Raymond G. Bressler and Harry R. Lewis, '07.

The initiates were John R. Chenette, '33; Reginald T. Lamb, '33; Frank J. Logler, '33; Henry S. Mason, '33; Francis D. Connors, '34; Joseph H. Lancor, Jr., '34; Leander LeTourneau, '34; J. Albert Newton Jr., '34; R. Arnold Skoog, '34; George Spink 3rd, '34, and Stanley A. Zidiales, '34. Stanley V. Madison, '33 a pledge.

SAE HOST TO "MINERVA CLUB"

Sunday afternoon the "Minerva Club" of Sigma Alpha Epsilon were hosts to the members of S. A. E. at a dinner which was held in East Hall. The club is composed of the mothers, sisters, and sweethearts of S. A. E. members. Mrs. Gerald Bean was chairman of the committee on arrangements. There was a large number of relatives and members present at the "get-together." After the dinner the Minerva Club held a short business meeting.

WHERE NOT TO TAKE HER

Down the line.
Back of the dairy barn.
Movies at Biscuit City.
The haunted house.
Udenwoods Lake.
The OLD social room of Davis Hall.
The granite quarry.
Kingston Boy Scout Camp.
To the Frat House.
Off of College grounds. (If she's campused.)
To the College Arboretum. (Know where it is?)
That new summer house on Hundred Acres.
Around the long course.
Leighton's orchard.
Balcony of Edwards Hall.
Post office in Davis Hall.
Back steps of a sorority house.
On the North Road after 9 p. m. (Or any other.)
The Bell House.
Ladd Laboratory.
Boat House at Thirty Acre Pond.
Canoeing amongst pillows and bulrushes.
Auto riding after dark.
Porch of the athletic house.
Parking without lights.

First Knight: How now, Sir Aggravate, wouldst call yonder knave cross-eyed?

Twelfth Knight: Forsooth, fair sir, cross-eyed indeed. Yon knave once spent weeks in Florida looking for the Northwest Mounted Police.

—Kansas Sour Owl.

Two business men were discussing a competitor who once had been an employee of the older of the two men.

"I happen to know that fellow is a sharper and not above stealing when it's to his advantage," remarked the older man.

"Do you know him personally?"
"Know him? Say, I taught him everything he knows."
—Tawney Kat.

Politician's Note: You can't fool all of the people all of the time. Concentration on a majority will attain the desired end.
—Carnegie Puppet.

The new automobiles are coming in in a variety of colors, but the pedestrians will still have to be content with black and blue.
—Wet Hen.

"Would you take a chance on the modern liquor?"
"Sure, how much is a chance?"
—Wabash Caveman.

WE WONDER

WHY certain co-eds become so interested in Professor DeWolfe's courses?

WHY "Reggie" Ashe likes football men?

IF Fred Sulloway had a good time at the Pembroke Prom?

WHEN the Delta Zetas will be appearing slim and sylph-like as a result of nightly calisthenics?

WHY J. Rice is so interested in high school students?

HOW we look when we're asleep?

IF housemothers will be rewarded with a scandal for their watch night service after prom?

WHAT the fraternities would do without their annual banquets as an excuse?

WHAT Rhody would be like without co-eds? (Rather lonesome, eh editor?)

IF Elinor Streeter wouldn't become more adept at her art if she attended the Colorado School of Mines?

IF Jerry Bean has an apathy for violets?

WHEN we will have some real Saturday night dances?

WHY "Sketch" doesn't worry about her courses?

WHAT Johnny Rego finds in Wickford?

WHERE "Andy" Hjelmstrom has been tearing off to every night? Is "Len" Russell in on it too?

WHY Joe Lancer takes Art?

WHY Ken Goff bought a Lizzie?

WHY there has been a steady increase in outgoing air mail?

PRIDE SHOULD BE ADVANCED AT R. I.

(Continued from Page 1)

portant. Each new achievement of our college adds to the standing and success in life of every one of the 1800 men and women who have been students here in the past, as well as those who are here now and those who come later.

Pride may be shown in two ways which may be called active and passive. Active pride consists in doing things which add to the credit and good name of the college. Among the things which our students may do to show their pride in their college are care in keeping all buildings and grounds clean and looking well, preserving lawns and shrubbery. They can treat visitors to the Campus with courtesy and maintain decorum in assembly. Success in athletic sports adds to our reputation, but good sportsmanship adds more to our good name than success in games. Achievements in scholarship, dramatics, or music all build higher our standing as an institution. Let us all take active pride in our college remembering that we are citizens of no mean city.

Passive pride, as I use that term, is a feeling deeply seated in our minds that our college is worthy of the respect and honor and wholehearted support of all its members, and that we are honored in being counted among its students or faculty. This kind of pride will prevent us from fault-finding and criticisms, especially to those who are not connected with the institution. It is easy to find things to complain about, if one is looking for such things. It is just as easy to find things to praise, if you are in that frame of mind. Let us all take pride in our institution; magnify its fine qualities and achievements before the world. We now stand on the threshold of a new era. The things that have gone before are but the preparation for the great future that is now opening, and we all may look forward with proud anticipations for the future. Let us all say proudly: "I am from Rhode Island State College."

Clark and Panzer To Play Rhody

Panzer Expected to Bring Down Strong Team

Now that our ball team is coming along, and a successful season is in sight, Panzer College, the New Jersey Physical Culture Institution, looms up on the horizon. Do you remember what they did to our crack basketball team? That should teach us to beware the "coaches" from New Jersey. Whatever may be the ability of the outfit they send down, (and not much is known about it) we do know that every individual will be a real athlete. The game next Tuesday should prove a real test of Rhody's ability, and Goff will probably draw the mound assignment.

Two days later, Clark University is expected to bring down a strong aggregation from Worcester, and should finish out a tough week for Keaney's balltossers.

Offspring: (Mama, what is a cave man?)

Mother (in the throes of learning contract bridge): The king of clubs.

—Wesleyan Wasp.

Bolshy: You've got more dirt on you than I've ever seen.

Vicky: Watcha expect? I'm twice as big as you.

—N. Y. Medley.

Dean of Women: Young lady, this is the third time that I've caught you.

Fair Co-ed: Don't be partial to me; the other girls might not like it.

—Oregon Orange Owl.

Rams Easy Victor Over Worcester

Rhody Shows Ability to Hit; Goff Pitches Tight Game Before Martynick Relieves Him

Rhody's balltossers clouted out an easy victory over Worcester Polytech last Saturday. The Engineers from Massachusetts hardly had time to dig their cleats into Rhode Island turf when they found themselves on the short end of a 10-0 tally. It was a wild inning, that first: Lettieri was hit. Pray rolled out. Goff doubled to right and Martynick was passed, Potter tripled, and Arnold was hit. At this point Koziol turned over the mound to Anderson. The situation proved to be well out of the hands of the lefthander when Cragan doubled, and Barnatowich and Hodgson singled. Lettieri was thrown out at first when squeezed to the advantage of Barney. Pray was walked, Goff singled, and Martynick doubled. Potter fled out in order to give Rhody time to mount up the runs—ten of them, and fourteen men stepped up to the plate. Another marker in the second, together with three more picked up in the fifth, completed Rhody's scoring attack for the day. Polytech's lone tally came in the second when Terry scored on Gattrell's bunt. Lettieri, Potter, and Hodgson turned nice games at each of their respective posts. Noreika fielded well for Tech. Four victories—five games.

Rhody Scores 18-2 Victory Over Conn.

Martynick Hits Two Homers, Double, and Single; Levanti Plays Best for Aggies

It was last Thursday that Rhody walloped an 18 to 2 victory out of their traditional rivals, the Connecticut Aggies. "Mickey" Martynick, the Woonsocket southpaw, proved to be the big gun in Rhody's overpowering barrage. If "Mick" pitching was good, his batting was superb, for in the course of the afternoon's festivities, he collected two circuit clouts, a double, and a single. The fact that he was deliberately passed on his last trip to the plate is tribute enough to Marty's mighty willow. In his capacity as moundsmen he allowed seven scattered hits.

The Rams had no difficulty clouting the offerings of Bill Roever, the Aggie twirler. Capt. Lettieri, the diminutive second baseman, also swung a heavy stick, and collected four singles. The Nutmeggers got their pair of runs in the fourth when Fagan tripled to right, and Rathbun doubled to right. "Mike" Lettieri gave a base stealing exhibition demonstrating the work of a classy keystone custodian. In the "lucky" seventh, 10 Keaneymen came to bat, six of them rounding the bases before resuming their position on the bench. Brighter things are in store for Rhody, if her heavy hitters maintain their stride.

Frosh Win From Tech High 5-2

Golden Pitches Good Game; Infield Proves To Be Fast

The yearlings showed promise of developing a fast baseball nine when they defeated Technical High School of Providence, by the score of 5-2. The infield consisting of Mazmanian at first, Greaves at second, Myers at short, and Bastolla at the hot corner may prove to be the fastest infield a freshman team has ever had. Harold Golden, former Woonsocket ace, held the visitors to two hits during the eight and two thirds innings he occupied the box. Stewart replaced Golden. Bastolla and Sanford were the yearlings' heavy hitters. Guyer was in the box for the high school lads. The freshmen will meet Warwick High tomorrow, and the Connecticut Frosh will pay them a visit the fourteenth of the month.

High School Meet To Be Held Sat.

Events to Start at Ten O'clock; Mr. Whelan Urges Student Cooperation

The majority of high schools throughout the State, and a few from the neighboring states, Connecticut and Massachusetts, will send their representatives to the 22nd Annual Interscholastic Track Meet to be held Saturday, May 9, at 10 a. m. at Students' Field. All the teams will have their "colors" flying in hopes of garnering a few points here and there. It has been predicted that Technical, Hope and LaSalle will share the first three places in Class A, while Providence Trade ought to take the "honors" for Class B.

The faculty officials have been selected for the various events, but Mr. Whelan has yet to appoint the student officials. There will be a slight change in the dinner arrangements, in that the dinners will be served in Lippitt Hall instead of in South and Davis Halls, as was done last year.

In the afternoon there will be an exhibition of the attractive and fascinating mechanical devices that are available in the various labs. Students will also demonstrate the operation of the "Forge," "Foundry," and "Pattern Making" courses.

The medals and cups will be awarded to the winners by Dr. Bressler. The presentation will take place at 3 o'clock in the new gymnasium.

Through the efforts of Daniel O'Connor there will be no necessity for lusty throated "barkers" to announce the results of the races. Mr. O'Connor will establish a series of loudspeakers around the field, and through these the results will be announced.

It is hoped that everyone will co-operate with Mr. Whelan and his committee, and make this the most successful "Interscholastic Day" ever to be held at Rhode Island State College.

The contesting schools will be divided into three classes according to the number of students in the school, and the location of the school. There will be Class A and class for out of state schools. In Class A the following schools will be represented: Woonsocket, Cranston, LaSalle Academy, Hope, East Providence, Commercial, Classical, Technical, Pawtucket and Rogers. In Class B the following schools will be represented: Providence Country Day School, Providence Trade School, De LaSalle, West-erly, South Kingstown, Warwick, Warren, Burrillville, North Kingstown and East Greenwich Academy. The out of state class will be represented by the following schools: Robert E. Fitch H. S., Chapman Tech, Putnam, Bulkeley, Stonington, Windham high schools, all of Connecticut and the Attleboro H. S. of Attleboro, Mass.

Order of Events

Events start at 10 o'clock sharp. All trials to be made previous to 9:55.

- 120 Yard High Hurdles—Class B—Heats
- 120 Yard High Hurdles—Class A—Heats
- 100 Yard Dash—Class B—Heats
- 100 Yard Dash—Class A—Heats

Rhody Runners Win From Aggies 85-50

Chubbuck Scores Twenty-Three Points; Goff Wins 100 and 220

Last Saturday afternoon the Rhody track team entertained the Connecticut Aggie team with an 85-50 defeat. A small crowd watched Dan Chubbuck, versatile Connecticut athlete, score 23 points of his team's total—he took four first places and one second. The Rhody runners garnered nine first places, while the visitors took five. The points in the high jump were divided.

Ken Goff was an easy double winner in the sprints, defeating Chubbuck in the century and almost tying the record in the 220. Rhody had great leads in both the track and field events. Besides the points garnered by Chubbuck, only one man was able to take a first place—Gray in the pole vault. "Artie" Arnold ran a hard race to win the mile, while Miner had things all his own way in the two-mile run. Laidlaw leaped more than twenty feet to win the broad jump, while Pendleton of R. I. and Joselyn of Conn., tied at 5 feet, five inches in the high jump. Krausche again demonstrated his prowess to win the 440-yard in 53 seconds.

In the most interesting event of the afternoon, Flaherty and Towle came from behind in the half-mile to finish first and second. Modeliszewski won the hammer throw while Leland Smith threw the javelin 162 feet 10 inches to win that event. Cleurzo was second in both the discus and shot.

Results:

Track Events

100-yard dash—Won by Goff, R. I.; second, Chubbuck, Conn.; third, L. Smith, R. I. Time 10.2 seconds.

220-yard dash—Won by Goff R. I.; second, L. Smith, R. I.; third, W. Robinson, Conn. Time 23 seconds.

440-yard run—Won by Krausche, R. I.; second, Sax, Conn.; third, Straight R. I. Time 53.9 seconds.

Half mile—Won by Flaherty R. I.; second Towle, R. I.; third, Sax, Conn. Time 2 minutes 10.5 seconds.

Mile run—Won by Arnold, R. I.; second, Hallock, Conn.; third, Wood, R. I. Time 4 minutes 42 seconds.

Two mile run—Won by Miner, R. I.; second, White, Conn.; third, Bottomley, R. I. Time 10 minutes 30.5 seconds.

120-yard hurdles—Won by Chubbuck, Conn.; second, Howes, R. I.; third, Laidlaw, R. I. Time 16.5 seconds.

220-yard low hurdles—Won by Chubbuck, Conn.; second, Krausche, R. I.; third, Howes, R. I. Time 26.4 seconds.

Field Events

Hammer throw—Won by Modeliszewski R. I., 137 feet 9 inches; second, Long, R. I., 126 feet; third, Bumpus R. I., 124 feet 1 inch.

Javelin throw—Won by L. Smith, R. I., 162 feet 10 inches; second, Arnold, Conn., 145 feet 7 inches; third, Tyler, R. I., 140 feet.

Discus throw—Won by Chubbuck, Conn., 136 feet 1 inch; second, Cleurzo, R. I., 121 feet 3 inches; third, Long, R. I., 112 feet.

Shot put—Won by Chubbuck, Conn., 43 feet 7 inches; second, Cleurzo, R. I., 43 feet 2 1/2 inches; third, Murdough, R. I., 38 feet 3/4 inches.

Pole vault—Won by Gray, Conn., 10 feet 9 inches; second Osterlund, R. I., 10 feet 6 inches; third MacAulian, R. I., 10 feet.

High jump—(Tie), Pendleton, R. I.; Joslyn, Conn.; Moore, Conn., 5 feet 5 inches.

Broad jump—Won by Laidlaw, R. I., 20 feet 4 1/2 inches; second, Osterlund, R. I., 20 feet 2 1/2 inches; third Joslyn, Conn., 19 feet 8 inches.

Referee—Prof. Samuel Webster; Judges—Capt. Thomas Freeman, Prof. Theodore Odland, Allerton Cushman. Starter—Serg't. Jesse Prime. Timers—Jack Stanton and Gordon Roy. Clerks—William Phelan, Prof. Leslie Keegan, Fred Crandall, Frank Schlenker.

any of the college social functions. In harmony with the favors are the celluloid programs which correspond very effectively with the compacts. The color scheme for both the compacts and the programs is blue and silver.

The patrons and patronesses are: President and Mrs. Raymond G. Bressler, Capt. and Mrs. Thomas W. Freeman, Coach and Mrs. Frank W. Keaney, Dean and Mrs. Royal L. Wales, Prof. and Mrs. Joseph W. Ince, and Dean and Mrs. John Barlow.

For the success of this year's Prom the credit belongs wholly to the efficient committee in charge, headed by Albert Carlotti, the chairman. It consists of: Thomas F. Bliss, Howard S. Brightman, and Catherine E. Regan, favors and programs; Ralph B. Lombardo, Erland A. Tillman, Caesar P. Castiglione, and Helen B. Grout, music; Arthur W. Edmond, Kenneth B. Potter, and Winifred M. Francis, patrons and patronesses; Charles G. Hammond, Jules W. Blitz, Amy G. Arbogast, and Gladys N. Whipple, decorations; J. Frederick Schmidt, Leon C. Breault, Byron A. Porter, lights; Flora E. Follett, Helen J. McNamee, and Doris T. Hayes, refreshments; Albert D. MacKinnon, Louis J. Bellavia, and Edgar T. Patterson, floor.

PHI DELTA WILL PRESENT DRAMA

(Continued from Page 1)

home of Lob and he seems to dominate the discussion. He leads the conversation around to the individual members. They claim that if they had another chance at marriage they would not make the same choice. One woman believes that she is in love with her butler and her husband thinks that he is in love with a woman other than his wife. In the second scene the characters are made to forget their former selves and are permitted to go back to the time when they made their choice for their life companions. The result of this new chance at life will be wonderfully portrayed May 8.

Those taking part in the play are: Lob, William Cushman; Mrs. Code, Helen Holmes; Mr. Code, Leander LeTourneau; Alice, Louise Fowler; Lady Caroline, Virginia May; Joanna, Amy Arbogast; Purdie, Clark Murdough; Dearth, Henry Pickersgill; Margaret, Ruth Barrows; Matey, Theodore Froeberg, and Mabel, Regina Ashe.

AGREED

I never thought that your most precious arms
Would fold and hold me to you with delight;
I never dreamed for me there were such charms,
I never dreamed there were—
And I was right!
—California Pelican.

Prof. (in biology class): But how can one check the ravages of the potato bug without destroying the crop?
Frosh: Can't you dynamite them?
—State Lion.

dance and an enjoyable time is assured for all the dancers. Charles Newman is chairman of the dance, while those helping him are Reginald Horseman, Ralph Lombardo, Alex Erickson and Thomas Gleason. The patrons and patronesses are Acting President and Mrs. John Barlow, Mrs. Lillian Peppard and Miss Alida Birch.

Delta Alpha Psi

The couples who visit Delta Alpha will dance to the melodious strains of "Ray Cohen and His 12-Piece Orchestra." Charles Hammann is chairman of the occasion and John Fruzat is his assistant. Professor and Mrs. Tyler will be the patron and patroness.

Sigma Alpha Epsilon

S. A. E. has been fortunate in obtaining the well-known Victoriettes to furnish the music for its dance. The committee in charge is composed of H. Turrissi, Imperatore, Pratt, and Gardner. The patrons and patronesses are Dr. and Mrs. Welden and Prof. and Mrs. Webster.

Phi Beta Chi

The "Blue Moon Orchestra" will furnish the music at their house dance which is in charge of Kenneth Goff. Others working with him are, Theodore Froeberg, Philip Lyon, Edward Towle and Harold Barr. The patrons and patronesses will be Professor and Mrs. Coggin and Professor and Mrs. Billmyer.

Alpha Epsilon Pi

The Silver Moon Serenaders have been secured by Alpha Epsilon Pi to furnish the music for the evening. The committee in charge consists of J. Anhalt, M. Grossman, H. Cokin, R. Krovitz, and S. Stein. Patrons and patronesses are Hon. Roy Rawlings and Mrs. Rawlings.

Dr. and Mrs. Douglas and Prof. and Mrs. Karbaum.

Phi Mu Delta

The interior of the Phi Mu Delta House will be decorated in jungle effect. The committee is composed of W. Ferris, C. Monroe, C. Fritz, and W. Moody. Patrons and patronesses are Prof. Emory, Mrs. Maude Whitney and Prof. and Mrs. Hetherington.

Phi Sigma

Pendleton, Miner and Rego, as committee, has secured Billy Barton and His Music from Westerly. Prof. and Mrs. Churchill and Captain and Mrs. Holly will be the patrons and patronesses.

Alpha Tau Gamma

The chairman in charge of their house dance is Charles Modliszewski and he has as his assistants, Robert Easdon and Gust Verros. The orchestra for the affair will be the "Alpha Iota Orchestra" from Woonsocket. Professor and Mrs. Ince and Mr. and Mrs. Wright will act as patrons and patronesses. The house will be attractively decorated in the fraternity colors of green and gold.

R. O. T. C. to Give Saber to Conn.

Gifts to be Presented by Co-Ed Major, Kay Regan

Recently it was agreed upon by the officers of the R. O. T. C. to present a saber to the best-drilled upperclassman at the Connecticut R. O. T. C. This custom will be carried on every year to commemorate the memory of Charles Howard Holland who departed in 1930 for the Great Adventure from whence there is no return. He had the position as First Lieutenant in the R. O. T. C. The gift is to be known as the "Charles Howard Holland Saber."

It is expected that the Co-ed major, Catherine Regan, will present the saber to the winner during drill at Connecticut.

BIO-SOCIETY TO BE REORGANIZED

A new biological society will be organized May 6. All the upper-classmen interested in biology are invited to membership, with an associate membership open to all Sophomores. The organization will meet every month and subjects relating to biology will be discussed. An organization meeting will be held May 6, in the large chemistry lecture room. At this time the officers will be elected from the upperclassmen. The faculty adviser will also be selected. It is hoped the general science students will take advantage of this unusual opportunity.

The world likes a good loser, particularly if it gets some of his money.
—Drexlerd.
